EDUCATION

The Pennsylvania State University, University Park, PA

August 2021 - December 2024

B.S. Information Sciences and Technology

- Major in Human-Centered Design and Development; Minor in Psychology
- GPA 3.90 / 4.0; Dean's List 7/7 semesters; Magna Cum Laude

RELATED SKILLS

- **Languages:** JavaScript, React, Java, Python
- **Technologies:** SQL, MongoDB, HTML/CSS, Tailwind CSS, Github, Figma

WORK EXPERIENCE

- **Commercial IT Intern** May 2024 – August 2024
AstraZeneca, Wilmington DE
 - Led a cross-departmental research initiative on Microsoft Copilot AI adoption, applying data analysis and behavioral insights to identify \$18K/month in productivity inefficiencies and guide strategic enablement planning.
 - Developed and deployed governance and compliance web applications using Orchestra CMS, JavaScript HTML, and CSS to streamline internal procedures and improve operational efficiency.
 - Built parsing application leveraging Java libraries Apache POI and PDFBox to process and segment large, complex documents, significantly reducing manual review time.
- **Web Developer** July 2025 – January 2026
Haus Zwei Tannen Permaculture Center, Sundern Germany
 - Spearheaded full website redesign in WordPress, customizing layouts with Kubia, HTML, and CSS and creating interactive map functionality with JavaScript.
 - Researched and integrated a multilingual plugin, improving accessibility for international users.
 - Quickly gained familiarity with DaVinci video editing software and recording equipment; led planning, filming, and editing of social media content promoting the organization's permaculture initiatives.

PROJECT EXPERIENCE

- **Penn State CourseClarity AI Application Development** September 2024 – December 2024
Fullstack Developer
 - Developed AI chatbot application to simplify complex academic planning and improve course decision-making.
 - Fine-tuned LLM on course syllabi data via OpenAI's public API, utilized Python libraries including BeautifulSoup to handle data preprocessing and Flask for API integration.
 - Built responsive UI components using React, Tailwind CSS, HTML, and JavaScript, ensuring seamless integration between interface and AI functionality.
- **Penn State Park Pro Java Application Development** September 2024 – December 2024
Java Developer
 - Translated functional requirements into object-oriented Java modules for theme park management functions including ticketing, ride scheduling, and daily operations.
 - Utilized GitHub for version control and branching; problem-solved to resolve merge conflicts, ensuring clean integration of team contributions
 - Implemented unit tests with JUnit to validate system functionality, improve reliability, and support iterative development.

EXTRACURRICULAR ACTIVITIES

- **Penn State College of Information Sciences and Technology** December 2024 - May 2025
Learning Assistant
 - Supported student learning in Intermediate Object-Oriented Programming class, providing one-on-one and group guidance to reinforce course concepts and debug assignments.
- **Penn State Women in Information Sciences and Technology (WIST)** September 2022 – December 2024
Member and Mentor
 - Independently mentored 4 female underclassmen students in tech-related majors, connecting with resources and empowering through difficulties.
